control−PGE2_vs_control−un − KEGG (UP)
Pathways in cancer
Cytokine−cytokine receptor interaction
PI3K−Akt signaling pathway
TNF signaling pathway
MicroRNAs in cancer
Chemokine signaling pathway
Cytoskeleton in muscle cells
Efferocytosis
C−type lectin receptor signaling pathway
NF−kappa B signaling pathway
Cell adhesion molecule (CAM) interaction
Amoebiasis
Viral protein interaction with cytokine and cytokine receptor
Hematopoietic cell lineage
Inflammatory bowel disease
Dilated cardiomyopathy
Hypertrophic cardiomyopathy
ECM−receptor interaction
Complement and coagulation cascades
Staphylococcus aureus infection
