control−PGE2_vs_control−un − KEGG (ALL)
Pathways in cancer
Cell cycle
Cytokine−cytokine receptor interaction
MicroRNAs in cancer
Chemokine signaling pathway
Homologous recombination
Cytoskeleton in muscle cells
Cell adhesion molecule (CAM) interaction
C−type lectin receptor signaling pathway
TNF signaling pathway
Amoebiasis
Small cell lung cancer
Viral protein interaction with cytokine and cytokine receptor
DNA replication
ECM−receptor interaction
Inflammatory bowel disease
Malaria
Complement and coagulation cascades
Staphylococcus aureus infection
African trypanosomiasis
