Crtc2−PGE2_vs_control−PGE2 − GO:BP (ALL)
immune effector process
response to bacterium
regulation of leukocyte activation
T cell activation
G protein−coupled receptor signaling pathway
positive regulation of cytokine production
negative regulation of immune system process
adaptive immune response
regulation of cell−cell adhesion
regulation of immune effector process
response to wounding
leukocyte mediated immunity
chemotaxis
taxis
regulation of inflammatory response
leukocyte proliferation
leukocyte migration
adaptive immune response based on somatic recombination of immune receptors built from immunoglobulin superfamily domains
myeloid leukocyte activation
cell chemotaxis
