Crtc2−un_vs_control−un − KEGG (ALL)
Pathways in cancer
Cytokine−cytokine receptor interaction
Calcium signaling pathway
Chemokine signaling pathway
Hematopoietic cell lineage
Cell adhesion molecule (CAM) interaction
C−type lectin receptor signaling pathway
Viral protein interaction with cytokine and cytokine receptor
Neuroactive ligand−receptor interaction
Inflammatory bowel disease
Rheumatoid arthritis
Th1 and Th2 cell differentiation
Leishmaniasis
Neuroactive ligand signaling
Dilated cardiomyopathy
Allograft rejection
Type I diabetes mellitus
Graft−versus−host disease
Staphylococcus aureus infection
Intestinal immune network for IgA production
