control−adenosine_vs_control−un − GSEA GO:BP
regulation of chromosome separation
chromosome separation
mitotic sister chromatid segregation
metaphase/anaphase transition of mitotic cell cycle
regulation of chromosome segregation
sister chromatid segregation
mitotic spindle organization
spindle assembly
meiotic cell cycle
nuclear chromosome segregation
chromosome segregation
microtubule cytoskeleton organization involved in mitosis
positive regulation of cell cycle process
chromosome localization
spindle organization
mitotic nuclear division
nuclear division
chromosome organization
mitotic spindle assembly
organelle fission
