control−adenosine_vs_control−un − KEGG (ALL)
Human T−cell leukemia virus 1 infection
Cytokine−cytokine receptor interaction
Cell cycle
Motor proteins
Human cytomegalovirus infection
Viral carcinogenesis
Chemokine signaling pathway
Cellular senescence
Progesterone−mediated oocyte maturation
TNF signaling pathway
Viral protein interaction with cytokine and cytokine receptor
Oocyte meiosis
C−type lectin receptor signaling pathway
Type I diabetes mellitus
Allograft rejection
Graft−versus−host disease
