control−PGE2_vs_control−un − GO:CC (UP)
side of membrane
axon
external side of plasma membrane
neuronal cell body
plasma membrane protein complex
apical part of cell
external encapsulating structure
extracellular matrix
receptor complex
synaptic membrane
distal axon
presynaptic membrane
plasma membrane signaling receptor complex
presynaptic active zone
collagen trimer
basement membrane
protein complex involved in cell adhesion
protein−lipid complex
voltage−gated calcium channel complex
high−density lipoprotein particle
