Crtc2−PGE2_vs_control−PGE2 − GO:BP (ALL)
response to bacterium
regulation of leukocyte activation
T cell activation
positive regulation of cytokine production
G protein−coupled receptor signaling pathway
adaptive immune response
negative regulation of immune system process
regulation of cell−cell adhesion
response to wounding
regulation of immune effector process
leukocyte mediated immunity
chemotaxis
taxis
regulation of inflammatory response
leukocyte migration
adaptive immune response based on somatic recombination of immune receptors built from immunoglobulin superfamily domains
response to molecule of bacterial origin
response to lipopolysaccharide
cell chemotaxis
myeloid leukocyte activation
