Crtc2−PGE2_vs_control−PGE2 − GO:BP (DOWN)
T cell activation
response to bacterium
regulation of leukocyte activation
negative regulation of immune system process
positive regulation of cytokine production
adaptive immune response
cytokine−mediated signaling pathway
regulation of cell−cell adhesion
regulation of immune effector process
leukocyte mediated immunity
leukocyte cell−cell adhesion
adaptive immune response based on somatic recombination of immune receptors built from immunoglobulin superfamily domains
leukocyte proliferation
chemotaxis
taxis
leukocyte migration
mononuclear cell proliferation
lymphocyte proliferation
regulation of leukocyte mediated immunity
alpha−beta T cell activation
