Crtc2−TNF_vs_control−TNF − GO:BP (ALL)
response to bacterium
regulation of leukocyte activation
T cell activation
regulation of MAPK cascade
positive regulation of cytokine production
adaptive immune response
regulation of immune effector process
leukocyte mediated immunity
positive regulation of MAPK cascade
chemotaxis
taxis
response to molecule of bacterial origin
response to lipopolysaccharide
organic anion transport
wound healing
regulation of leukocyte mediated immunity
positive regulation of immune effector process
cell chemotaxis
defense response to bacterium
myeloid leukocyte migration
