Crtc2−TNF_vs_control−TNF − GO:BP (DOWN)
response to bacterium
T cell activation
regulation of leukocyte activation
negative regulation of cell population proliferation
negative regulation of immune system process
cytokine−mediated signaling pathway
blood vessel morphogenesis
positive regulation of cytokine production
adaptive immune response
regulation of immune effector process
leukocyte mediated immunity
response to molecule of bacterial origin
response to lipopolysaccharide
negative regulation of response to external stimulus
adaptive immune response based on somatic recombination of immune receptors built from immunoglobulin superfamily domains
negative regulation of cytokine production
lymphocyte mediated immunity
regulation of leukocyte mediated immunity
T cell mediated immunity
regulation of T cell mediated immunity
