Crtc2−adenosine_vs_control−adenosine − GO:BP (ALL)
G protein−coupled receptor signaling pathway
regulation of leukocyte activation
T cell activation
response to bacterium
adaptive immune response
blood vessel morphogenesis
negative regulation of immune system process
regulation of cell−cell adhesion
positive regulation of cell adhesion
angiogenesis
regulation of immune effector process
leukocyte cell−cell adhesion
chemotaxis
taxis
leukocyte proliferation
leukocyte migration
lymphocyte proliferation
negative regulation of cell adhesion
cell chemotaxis
leukocyte chemotaxis
