Crtc2−un_vs_control−un − KEGG (ALL)
Pathways in cancer
Cytokine−cytokine receptor interaction
Calcium signaling pathway
Rap1 signaling pathway
Cell adhesion molecule (CAM) interaction
Hematopoietic cell lineage
C−type lectin receptor signaling pathway
Viral protein interaction with cytokine and cytokine receptor
Rheumatoid arthritis
Neuroactive ligand−receptor interaction
Inflammatory bowel disease
Neuroactive ligand signaling
Th1 and Th2 cell differentiation
Leishmaniasis
Dilated cardiomyopathy
Allograft rejection
Type I diabetes mellitus
Graft−versus−host disease
Staphylococcus aureus infection
Intestinal immune network for IgA production
