control−PGE2_vs_control−un − GO:CC (UP)
side of membrane
external side of plasma membrane
neuronal cell body
plasma membrane protein complex
apical part of cell
receptor complex
external encapsulating structure
extracellular matrix
synaptic membrane
distal axon
plasma membrane signaling receptor complex
presynaptic membrane
monoatomic ion channel complex
presynaptic active zone
basement membrane
collagen trimer
protein complex involved in cell adhesion
calcium channel complex
voltage−gated calcium channel complex
high−density lipoprotein particle
