control−PGE2_vs_control−un − KEGG (ALL)
Pathways in cancer
Cell cycle
Cytokine−cytokine receptor interaction
MicroRNAs in cancer
Chemokine signaling pathway
Cytoskeleton in muscle cells
Homologous recombination
Cell adhesion molecule (CAM) interaction
C−type lectin receptor signaling pathway
Viral protein interaction with cytokine and cytokine receptor
Amoebiasis
Small cell lung cancer
DNA replication
Inflammatory bowel disease
ECM−receptor interaction
Fanconi anemia pathway
Malaria
Complement and coagulation cascades
Staphylococcus aureus infection
African trypanosomiasis
