Crtc2−PGE2_vs_control−PGE2 − GO:BP (DOWN)
immune effector process
cell−cell adhesion
regulation of cell activation
positive regulation of response to external stimulus
T cell activation
response to bacterium
regulation of leukocyte activation
negative regulation of immune system process
cytokine−mediated signaling pathway
adaptive immune response
positive regulation of cytokine production
regulation of immune effector process
leukocyte mediated immunity
regulation of inflammatory response
adaptive immune response based on somatic recombination of immune receptors built from immunoglobulin superfamily domains
leukocyte proliferation
mononuclear cell proliferation
lymphocyte proliferation
myeloid leukocyte activation
negative regulation of leukocyte activation
