Crtc2−TNF_vs_control−TNF − GO:BP (ALL)
MAPK cascade
cell−cell adhesion
regulation of cell activation
immune effector process
response to bacterium
regulation of leukocyte activation
T cell activation
metal ion transport
adaptive immune response
regulation of immune effector process
regulation of inflammatory response
chemotaxis
taxis
organic anion transport
leukocyte migration
organic acid transport
carboxylic acid transport
cell chemotaxis
defense response to bacterium
myeloid leukocyte migration
