Crtc2−TNF_vs_control−TNF − GO:BP (DOWN)
tube morphogenesis
actin filament−based process
immune effector process
regulation of response to biotic stimulus
actin cytoskeleton organization
T cell activation
regulation of leukocyte activation
response to bacterium
cellular response to lipid
negative regulation of immune system process
cytokine−mediated signaling pathway
blood vessel morphogenesis
regulation of immune effector process
negative regulation of response to external stimulus
response to lipopolysaccharide
negative regulation of defense response
T cell mediated immunity
regulation of T cell mediated immunity
regulation of leukocyte mediated cytotoxicity
T cell mediated cytotoxicity
