Crtc2−TNF_vs_control−TNF − GO:BP (UP)
lipid biosynthetic process
monocarboxylic acid metabolic process
small molecule biosynthetic process
protein maturation
monoatomic ion homeostasis
monoatomic cation homeostasis
intracellular monoatomic ion homeostasis
intracellular monoatomic cation homeostasis
fatty acid metabolic process
ribosome biogenesis
organic anion transport
organic acid biosynthetic process
carboxylic acid biosynthetic process
lipid catabolic process
organic acid transport
carboxylic acid transport
cell chemotaxis
membrane lipid metabolic process
monocarboxylic acid biosynthetic process
vascular process in circulatory system
