Crtc2−TNF_vs_control−TNF − KEGG (ALL)
MAPK signaling pathway
Lipid and atherosclerosis
Efferocytosis
Osteoclast differentiation
Cytokine−cytokine receptor interaction
C−type lectin receptor signaling pathway
TNF signaling pathway
Toxoplasmosis
Natural killer cell mediated cytotoxicity
B cell receptor signaling pathway
Cell adhesion molecule (CAM) interaction
Leishmaniasis
Neuroactive ligand−receptor interaction
Hematopoietic cell lineage
Type I diabetes mellitus
Allograft rejection
Graft−versus−host disease
Autoimmune thyroid disease
Malaria
Complement and coagulation cascades
