Crtc2−adenosine_vs_control−adenosine − GO:BP (ALL)
cell−cell adhesion
tube morphogenesis
regulation of cell activation
regulation of leukocyte activation
G protein−coupled receptor signaling pathway
T cell activation
vasculature development
immune effector process
blood vessel development
blood vessel morphogenesis
negative regulation of immune system process
adaptive immune response
regulation of cell−cell adhesion
angiogenesis
leukocyte proliferation
chemotaxis
taxis
leukocyte migration
cell chemotaxis
myeloid leukocyte migration
