Crtc2−un_vs_control−un − GO:BP (ALL)
cell−cell adhesion
regulation of cell activation
immune effector process
regulation of leukocyte activation
T cell activation
G protein−coupled receptor signaling pathway
blood vessel morphogenesis
positive regulation of cell adhesion
adaptive immune response
regulation of immune effector process
leukocyte migration
chemotaxis
taxis
leukocyte proliferation
mononuclear cell proliferation
lymphocyte proliferation
myeloid leukocyte activation
regulation of leukocyte proliferation
cell chemotaxis
myeloid leukocyte migration
