Crtc2−un_vs_control−un − GO:BP (DOWN)
cell−cell adhesion
regulation of cell activation
immune effector process
regulation of leukocyte activation
T cell activation
negative regulation of immune system process
regulation of immune effector process
positive regulation of cell adhesion
G protein−coupled receptor signaling pathway
leukocyte proliferation
lymphocyte proliferation
mononuclear cell proliferation
chemotaxis
taxis
positive regulation of immune effector process
regulation of leukocyte mediated immunity
regulation of leukocyte proliferation
myeloid leukocyte activation
regulation of lymphocyte proliferation
regulation of mononuclear cell proliferation
