Crtc2−un_vs_control−un − GO:BP (UP)
cell−cell adhesion
vasculature development
actin filament−based process
blood vessel development
nervous system process
regulation of MAPK cascade
blood vessel morphogenesis
G protein−coupled receptor signaling pathway
regulation of cytoskeleton organization
response to wounding
leukocyte migration
regulation of actin filament−based process
chemotaxis
taxis
cell chemotaxis
mononuclear cell migration
myeloid leukocyte migration
tissue remodeling
regulation of mononuclear cell migration
macrophage migration
