control−PGE2_vs_control−un − GO:CC (UP)
cell surface
extracellular space
side of membrane
lytic vacuole
lysosome
axon
external side of plasma membrane
plasma membrane protein complex
apical part of cell
lysosomal membrane
receptor complex
apical plasma membrane
external encapsulating structure
extracellular matrix
membrane raft
membrane microdomain
plasma membrane signaling receptor complex
presynaptic membrane
protein complex involved in cell adhesion
collagen trimer
