control−adenosine_vs_control−un − GO:BP (DOWN)
chromosome segregation
nuclear chromosome segregation
nuclear division
organelle fission
chromosome organization
mitotic nuclear division
sister chromatid segregation
microtubule cytoskeleton organization
mitotic sister chromatid segregation
spindle organization
microtubule cytoskeleton organization involved in mitosis
mitotic spindle organization
metaphase chromosome alignment
chromosome localization
regulation of chromosome segregation
chromosome separation
regulation of mitotic nuclear division
regulation of nuclear division
metaphase/anaphase transition of mitotic cell cycle
attachment of spindle microtubules to kinetochore
