control−adenosine_vs_control−un − GSEA GO:BP
regulation of chromosome separation
chromosome separation
mitotic sister chromatid segregation
metaphase chromosome alignment
regulation of chromosome segregation
regulation of sister chromatid segregation
meiotic cell cycle
mitotic spindle organization
sister chromatid segregation
nuclear chromosome segregation
spindle assembly
chromosome segregation
microtubule cytoskeleton organization involved in mitosis
positive regulation of cell cycle process
mitotic nuclear division
spindle organization
nuclear division
chromosome organization
organelle fission
regulation of chromosome organization
