control−adenosine_vs_control−un − KEGG (UP)
Cytokine−cytokine receptor interaction
Human cytomegalovirus infection
Herpes simplex virus 1 infection
Human T−cell leukemia virus 1 infection
MAPK signaling pathway
TNF signaling pathway
Chemokine signaling pathway
Viral carcinogenesis
Viral protein interaction with cytokine and cytokine receptor
C−type lectin receptor signaling pathway
Type I diabetes mellitus
Vascular smooth muscle contraction
Cell adhesion molecule (CAM) interaction
Oxytocin signaling pathway
Allograft rejection
Graft−versus−host disease
Viral myocarditis
Autoimmune thyroid disease
Arrhythmogenic right ventricular cardiomyopathy
Inflammatory bowel disease
